

# Optimize your grow-out with AquaBeads®

## Help Hatchlings Start Strong

AquaBeads® attract hatchlings to feed quickly, providing critical hydration and nutrition at placement to promote immediate growth.

## Improve Poultry Performance

Early hydration and nutrition helps reduce mortality by accelerating body weight gain, gut development, and disease resistance.

## Deliver Essential Nutrients Efficiently

Ready-to-use gel beads apply easily as a top-dressing on starter feed. You can even use the beads to deliver vaccines, probiotics, and more.
