

DietGel[®] Poultry

Hydration Supplement for Hatchling Poultry

DietGel[®] Poultry is a ready-to-use, nutritional supplement for hatchling poultry during transport. Combines hydration and essential nutrients, electrolytes, vitamins, and protein, in addition to natural attractants to promote consumption. DietGel[®] Poultry provides the hydration and nutrition hatchlings need to successfully endure and recover from the stress of transportation from hatchery to farm.

Clearly Better Quality

- **Nutritionally Balanced** – Delivers hydration and nutrition supporting early chick development.
- **Rehydrating Ingredients** – Contains Betaine to promote cell hydration and stress recovery.
- **High Consumption** – Natural color and odor attractants encourage consumption.
- **Non-wetting** – Hatchlings stay dry.
- **Contaminant Free** – Independent laboratory tested to be free of spoilage organisms and pathogens.
- **Quality Assurance** – Produced in an FDA approved facility with Certificates of Analysis available on-line.

Clearly Better Convenience

- **Ready-to-Use** – No measuring or mixing, reducing time and labor.
- **Packaging** – 1020g pouches coded with lot and expiration date.
- **Portioning** – Each pouch yields 49 - 21gm or 196 - 5gm Gel Cube for easy dispensing. Use our Gel Cutting Device & Cutting Board for best results.
- **Stability** – Commercially sterile. Room temperature shelf stable.

Ingredients

Purified Water, Amino Acid Blend, Hydrocolloids, Vegetable Oil, Betaine, Food Acids, Mineral Mix, Vitamin Mix, Food Colors.

Shelf Life

ClearH₂O®

Clearly Better Packaging

DietGel® Poultry comes in convenient 1020g pouches with 15 pouches per case. Room temperature storage and 18 month dating make inventory and handling convenient.

Clearly Better Preparation

The innovative design of the Gel Cutting Device & Cutting Board make portioning efficient and easy. Made of stainless steel and food grade polymer components, the equipment can be easily cleaned and sterilized.

Portioning DietGel™ with the Gel Cutting Device & Cutting Board

1. Set up the Gel Cutting Device on the Cutting Board placed over a bucket or storage container.

2. Using a Pouchmate Opener, slice the pouch open and remove the gel square.

3. Place up to four gel squares into the Gel Cutting Device hopper.

4. With the Gel Cutting Device plunger, push the gel squares through the blade assembly.

Company Information

ClearH₂O® is committed to providing products that improve the welfare and productivity of poultry. We offer poultry breeders and producers gel products that support the optimum delivery of hydration, nutrients, biologics and therapeutic ingredients to chicks and poults. Our proprietary product formulations and manufacturing process results in unsurpassed product consistency and convenience.
