

Support health outcomes with DietGel® 76A

Balanced Nutrition for Improved Health

Fortified with purified ingredients like milk protein, vitamins, minerals, and electrolytes to support general health, breeding, or compromised rodents.

High Palatability for Rodents

DietGel® 76A is modeled on the AIN 76A maintenance diet and has a highly palatable molasses flavor profile to encourage consumption.

Easy and Ready-to-Use

Simply peel off the lid and place the 2 oz cup in the cage. The ready-to-use format saves time and reduces labor for your animal care teams.
