

Support reproductive success with **DietGel® Prenatal**

High-Protein, Omega-3 Fortified Nutrition

DietGel® Prenatal is fortified with fish oil, folic acid, iron, and flax seeds to support maternal health and pup development.

High Palatability for Breeding Animals

The soft texture and molasses flavor profile promote consumption in animals with increased metabolic demand.

Easy and Ready-to-Use

Simply peel off the lid and place the 2 oz cup in the cage. The ready-to-use format saves time and reduces labor for your animal care teams.
