

LabGel®Forage Seeds

Enrichment Dietary Supplement

LabGel® Forage Seeds is a symphony of seeds and groats mixed into an electrolyte-infused enrichment gel, designed to provide stimulation and hydration for research animals. This enrichment gel encourages natural foraging behaviors, helping keep animals engaged for extended periods.

Delivering Solutions

- Inclusions ideal for rodents, encouraging natural foraging behaviors
- Electrolyte blend supports proper hydration during foraging
- Palatable seeds and groats promote consumption
- Ready-to-use gel format saves time and reduces labor

Delivering Quality

- Commercially sterile inside and out
- Tyvek® medical packaging
- E-Beam irradiated
- Complies with quality standards as tested by an independent laboratory
- Certificate of analysis by manufactured lot
- Individually coded with lot and date of expiration

Instructions

- To be administered under the direction of a veterinarian
- Manufactured for use in research animals

Ingredients

Purified Water, Malt Extract (Barley), Sunflower Seeds, Whole Grain Oats, Flax Seeds, Hydrocolloids, Food Acids, Electrolyte Blend.

Shelf Life

Shelf life is 12 months, unopened at room temperature storage.

Clear H₂O°

Company Information

ClearH₂O° is committed to advancing animal research and agriculture with more effective and ethical hydration, nutrition, and medication delivery solutions utilizing our proprietary gel technology. Made in our FDA approved facility, ClearH₂O° products are formulated with purified ingredients and highly palatable to optimize consumption. The ready to use, convenient product format with long-dated, room temperature shelf stability helps animal researchers and producers improve the health and welfare of their animals while optimizing research and productivity outcomes.
