LabGel[®] Forage Veggies

Enrichment Dietary Supplement

LabGel[®] Forage Veggies combines garden vegetables and fruits into a highly palatable gel, enhanced with prebiotic fiber and electrolytes. This supplement encourages natural foraging behaviors while supporting digestive health and hydration.

Delivering Solutions

- Inclusions ideal for rabbits and guinea pigs, encouraging natural foraging behaviors
- Electrolyte blend supports proper hydration during foraging
- Palatable seeds and groats promote consumption
- Ready-to-use gel format saves time and reduces labor

Delivering Quality

- Commercially sterile inside and out
- Tyvek[®] medical packaging
- E-Beam irradiated
- Complies with quality standards as tested by an independent laboratory
- Certificate of analysis by manufactured lot
- Individually coded with lot and date of expiration

Instructions

- To be administered under the direction of a veterinarian
- Manufactured for use in research animals
