

NutriBeads

www.clearh2o.com

Next-generation feed attractant delivering immediate hydration & essential early-life nutrients at placement.

NutriBeads are a ready-to-use, high-moisture gel bead designed for application as a top-dressing to starter feed at the time of placement to accelerate early discovery of feed and water for improved health and growth performance.

Key Nutritional Additions:

- 01 **Essential Amino Acids**
Lysine, Methionine, L-Threonine, Arginine
- 02 **GAA (guanidinoacetic acid)**
Supports early energy metabolism
- 03 **Vitamin Mix**
Supports early immune and metabolic function
- 04 **Immediate Hydration**
Plus essential early-life nutrients at placement when birds need it most

Clearly Better Convenience

- 01 **Ready-To-Use**
No measuring, mixing, or addition of water needed for easy, clean, and convenient administration.
- 02 **Packaging**
34 lb pail (60 pails/pallet)
- 03 **Shelf Life**
18 months at room temperature. No refrigeration required if unopened.

Instructions

- Apply as a feed top-dressing at a rate of 0.5–3 grams/bird/day at the time of placement.
- Applications may range from 1-3 days depending on hatchling and environmental conditions.
